

CERTIFIED

easy assembly

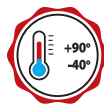

height adjustable

55 lb per surface

Polypropylene Shelves of modern and robust construction, washable. They are widely used in US and Europe, with unlimited warranty. The polypropylene shelves can be adjusted according to your needs, and they are the most popular choice because of the ability of the surfaces to be removed in pieces and be washed in a washer.

They are dissolved, reinforced so that each area can:

- Accept small and large loads up to 551lb per surface.
- Be placed at the desired height adjustable by 5".
- Permit refrigeration of the merchandise even at the lower side.

More:

- It is the most popular manufacturing and assembly system. Mounting time of each rack is 5 minutes. No tools are needed.
- Simple and quick calculation of the size and price of each rack for the interior of the chamber, back and both sides in the shape of "Π" and "Γ". Alternatively you give us the inner dimensions and we immediately send you the ground plan of the shelves and price.
- Fixed structure with great stability. They are not swaying, they don't need support on the sides of the chamber, they are self-supporting.
- Polypropylene surfaces approved by the FDA as Food-safe.
- Especially made for maintenance and storage of food in super market, kitchens, restaurants, butcher shops and suitable for contact with poultry, meats, cheeses, pasta, pastries, etc.
- Available in width of 18" and 24" and in height of 72".
- Possibility for combination of rack width according to customers' needs.
- They can be assembled with surfaces from 4 up to 10.

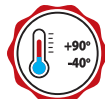

Food storage in polypropylene shelves

CERTIFIED

Certified metallic shelves with epoxic coating of great resistance. 10 years warranty. The economical solution. They are constructed so that they can bear large cargos (up to 882lb per surface).

- They bear large loads up to 882lb per surface.
